Hi Susan,

Omar had mentioned that you had wanted to meet about CES with Nicole, Denise, and myself tomorrow morning. Unfortunately, that day doesn't work and Nicole is out this week and most of next week. Next Friday may be a possibility, or I can call you later this week, but right now I do not have the latest info since this site is still not under the Superfund Section's purview.

Please let me know if you would like to discuss before next Friday-thanks!
